

Dear Chief Executives and Business Leaders,

As CEO and Executive Coach at Realization Partners, my main objective is to partner with you to help you realize your goals.

Because your business results are dependent on the performance of many individuals including yourself, it is smart to build up a team of leaders who are continually improving their results and realizing growth goals.

If one of your employees has asked you to approve the investment in his or her coaching, please read the rest of my letter and do so today. You will be pleased with your decision and the results we deliver.

Realization Partners' coaching program is evidence-based and designed to meet the unique needs of the individual while driving organizational needs for productivity and profitability. Executive Coaching offers an opportunity for senior leaders to accelerate personal development through a coaching process that delivers behavior change linked to business results.

Our experienced, certified professional coaches will develop and enhance the skills and leadership behaviors of those who are critical to the future of your organization. With our scientifically validated coaching model and brief solution-focused coaching process, our coaches help individuals recognize their strengths, as well as their blind spots as leaders.

Typical executive coaching results we deliver include, but are not limited to:

- Improved leadership skills and coaching skills of individual executives
- Increased performance of individuals and teams, measured and tracked
- Increased employee engagement, morale, and commitment to results as team members

We look forward to the opportunity to become your trusted partners for increasing your success and the success of your organization.

Get in touch with me directly at any time, with any question. No concern is too small.

Sincerely,

Julie DeVito
